

## Zombie Tag

Zombie Tag  
By Dakota Rollins

Zombie tag is played very similar to the standard game of tag except the zombie builds a team to help. Here's how to start:

1. Determine the boundary of the playing field.
2. Chose one player to be the first zombie.
3. The zombie closes his eyes and counts to 20.
4. Everyone scatters and hides.
5. Once the zombie tags another player who then becomes a zombie.
6. Once you're a zombie, you can't be brought back to life.
7. The game ends when there is only one human standing—the winner.

It's great to play Zombie tag in a forest, but you can play it in the yard or in the house. Don't forget to put your cell phone on vibrate!
